## POWDER LIGHTENERS

### Ultra

Ultra is a versatile dust free bleach that can be used on the scalp for lightening the entire head of hair or off the scalp for highlighting, foiling and baliage. Available in white and blue as refill or in tubs.

### Lisy Platin

Lisy Platin Crystalizing Powder Bleach guarantees an exceptional lightening action that's even and consistent from roots to ends. Recommended for all lightening techniques including highlights, streaks, foils, highlift comb techniques and baliage. Rice starch and lanolin in the formulation of Lisy Platin assure protection for the hair.

## DEVELOPERS

### Lisap Developer

Lisap's Developer is formulated to work in synergy with LK Cream Color. The lanolin base of Lisap's Developers compliments the coconut oil base of LK Cream Color. Lisap's Developers ensure better colour penetration and better colour stability.

## COLOUR SAVE

*Color Save is a complete range of professional haircare products designed to protect, enhance and prolong the vibrancy of colour treated hair. The products are formulated to minimise colour fading and prevent scalp irritations caused by chemical residue.*

### Color Vitamin Shampoo (with Vitamin E)

Rich in bran protein and Vitamin E to moisturise, reconstruct and protect the hair, Color Vitamin Shampoo leaves the hair in perfect condition and easy to manage. The advanced formula of this shampoo maintains a perfect pH balance. It gently cleanses to reveal soft, bright and healthy hair.

### Silver Shampoo

Conditioning shampoo with colour pigments to tone yellow tones in white, bleached, blonde or copper hair. Pigment does not accumulate in the hair so Silver Shampoo can be used on a daily basis. Silver Shampoo's non-alkaline formula has a natural conditioning action on bleached, streaked or highlighted hair.

### After Color Equalizer (ph 4.5 - 5)

Eliminates alkaline residue from the hair and scalp. Used one hour after hair colour is processed, After Color Equalizer helps to eliminate colour fade by cleansing the hair and scalp of impurities and delicately locking colour molecules into the hair. It balances pH levels and is enriched with wheat bran extract for cuticle protection, extra moisture and shine.

### pH Balancer (2.7 - 3.2)

The perfect after colour conditioner. pH Balancer restores the hair's pH level and neutralises developer action in just one minute. Has a strong rehydrating action, moisturising both the hair and scalp. Also protects the capillary cuticle, improves flexibility, body and shine.

### Screen Color

Anti-stain product, designed to prevent the formation of stains from hair colouring systems on the skin.

## >>> other professional products

### Life Ampule (with Vitamin E)

Specifically formulated to provide long term protection for coloured, treated and bleached hair. Ensures longer lasting highlights, more vibrant colour services from semis to tints. Rich in ultra-conditioning polymers and Vitamin E, Life Ampule adds volume and gloss while conditioning and protecting from ultra violet (UV) rays.

### UNISYSTEM STRAIGHTENER

Formulated to straighten naturally curly or permed hair, Unisystem Straightener is ideal for all hair types. Contains shea butter and jojoba oil to leave hair shiny and moisturised.

### ABBA TRUE SHAPES ACID WAVE

The unique low thio and low ammonia herbal formula creates true to rod sized curls, whilst botanicals, herbs and proteins condition and strengthen

hair from the inside out. Suitable for normal, tinted and up to 40% highlighted hair.

### MASTEY PERMACISION - SELF TIMING PERM

Permcision locks in the exact amount of curl desired to produce true to rod size. Contains protective conditioners and Mastey's unique Moisturising Factor to create natural, healthy curls.
